1.0 PROJECT INFORMATION:

1.1 Project Overview: Hillsborough County (County) is interested in receiving submissions from artists demonstrating their ability to provide completely realized three-dimensional artwork for the exterior display of a landmark sculpture at the future roadway roundabout at the intersection of Durant Road, and Miller Road. This project is focused on acquiring public art that will be permanently displayed at the roundabout. A location map and sketches of the proposed roundabout is included in Exhibit A of this document.

1.2 The project will have several stakeholders including the Board of County Commissioners, County Administration, the Public Art Committee, various County Departments, and other interested community organizations and individuals. The desired theme for the artwork is of a life-sized statue in the likeness of Professor William G. Tousey, the founder of Valrico. The piece should be comprised of a natural material, monolithic in form and require very low maintenance. The selected artist(s) will be responsible for the design, fabrication, and installation of the artwork, to include foundation structural design and related permitting of the base/pedestal and the art/sculpture. A marker shall be placed at each pedestrian crossing with information on Professor Tousey, the history of Valrico, and a description of the statue. The artwork will become part of the County’s permanent public art collection. Artists are required to submit qualifications, and encouraged to provide illustrations (images, renderings), and a brief statement describing an initial concept idea for this project. It is hoped that a full range of art mediums suitable for an outdoor environment will be represented.

This intersection is located South-East Hillsborough County. The roundabout will be a two-lane design. It is preferable to have artwork centrally located in the roundabout. At the time of this Call to Artists issuance, the design plans show a center island with a diameter of 54 feet (27 feet radius). The artist should include in his/her design a plinth that is approximately 6 feet in height to be designed and constructed in the center island of the roundabout. The sculpture is to be at least life-sized.

Three finalists will be selected to provide site specific proposals. Each selected finalist will be paid an honorarium of up to $750.00 (seven hundred and fifty dollars). Site Specific Proposals must include a site specific maquette and/or other visual depictions of the proposed artwork. Final selection will be made by the Board of County Commissioners.
