Americans for the Arts is committed to addressing equity and inclusion as a critical component of the Arts & Economic Prosperity 6 study by centering and representing organizations that primarily serve and support BIPOC (Black, Indigenous, People of Color) and ALAANA (African, Latinx, Asian, Arab, Native American) communities—a segment of the nonprofit arts and culture sector that has been underrepresented in past studies. This will provide a fuller and more representative portrait of the arts industry in each of the 300+ participating communities. We know we have a lot of work to do and a lot of learning that needs to happen, and we need help if we are to be successful.

To ensure this process is inclusive and transparent, an important step was the establishment of an AEP6 Equity Task Force. The purpose of the Task Force is to provide advisory support and guidance through the members’ insights and expertise, thereby helping to ensure the inclusion of BIPOC/ALAANA arts and culture organizations and communities in the study. The Task Force meets on a monthly basis (and provides written feedback) to guide the development and implementation of this work.

Members
